Pc. 2 item. S-67.7.38260.X The Economic Impact of Diabetes in the UK: NHS England estimates the economic costs of diabetes at £10.9bn for the NHS in England. Some of these costs are imposed by policy and others are borne by the health-care system, the government and patients. These costs are not the only costs of the disease, as the impact of the disease extends beyond these figures. The economic costs of diabetes to patients and their families are the greater in this context. This article gives an overview of the costs associated with diabetes and places a particular focus on the cost of diabetes to health care. Furthermore, it offers an overview of the costs of diabetes to health care. Following this, it discusses the impact of diabetes on the productivity of the workforce. This is the final chapter in a series of four articles that evaluates the cost implications of the economic and social burden of the disease, including the cost of caring for patients, work absenteeism, and work-related conditions. ^NEW^ Garmin MapSource Cyprus (Geomatic) V10.2009 Img Version Download Pc.
